

ICSE Previous Year Practice 2018 (2018)

Subject: General | Topic: Operating Systems

1. A student says 'paging' is not relevant to real projects. What is the best correction?
2. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
3. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
4. When working with Operating Systems, why would a developer use system calls? (variation 106)
5. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
6. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
7. Which statement best describes processes in Operating Systems? (variation 80)
8. When working with Operating Systems, why would a developer use system calls? (variation 96)
9. Which statement best describes processes in Operating Systems? (variation 100)
10. Which statement best describes file systems in Operating Systems? (variation 95)
11. Which statement best describes processes in Operating Systems? (variation 350)
12. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
13. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
14. What is the most accurate beginner-level explanation of context switching? (variation 92)
15. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
16. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
17. What is the most accurate beginner-level explanation of context switching? (variation 352)

18. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
19. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
20. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
21. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
22. When working with Operating Systems, why would a developer use threads? (variation 351)
23. When working with Operating Systems, why would a developer use system calls? (variation 86)
24. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
25. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
26. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
27. When working with Operating Systems, why would a developer use threads? (variation 71)
28. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
29. A student says 'mutexes' is not relevant to real projects. What is the best correction?
30. What is the most accurate beginner-level explanation of context switching? (variation 72)
31. Which statement best describes file systems in Operating Systems? (variation 75)
32. When working with Operating Systems, why would a developer use system calls?
33. Which statement best describes file systems in Operating Systems?
34. Which statement best describes processes in Operating Systems? (variation 90)
35. Which option is a correct use case for virtual memory in Operating Systems?
36. When working with Operating Systems, why would a developer use threads? (variation 91)

37. When working with Operating Systems, why would a developer use system calls? (variation 356)
38. When working with Operating Systems, why would a developer use threads?
39. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
40. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
41. Which option is a correct use case for scheduling in Operating Systems?
42. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
43. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
44. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
45. Which statement best describes file systems in Operating Systems? (variation 355)
46. When working with Operating Systems, why would a developer use threads? (variation 81)
47. What is the most accurate beginner-level explanation of context switching? (variation 102)
48. What is the most accurate beginner-level explanation of context switching?
49. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
50. When working with Operating Systems, why would a developer use threads? (variation 101)
51. What is the most accurate beginner-level explanation of deadlocks?
52. Which statement best describes processes in Operating Systems? (variation 70)
53. When working with Operating Systems, why would a developer use system calls? (variation 76)
54. What is the most accurate beginner-level explanation of context switching? (variation 82)
55. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)

56. Which statement best describes file systems in Operating Systems? (variation 85)

57. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)

58. Which statement best describes processes in Operating Systems?

59. Which statement best describes file systems in Operating Systems? (variation 105)

60. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
