

ICSE Previous Year Practice 2022 (2022)

Subject: General | Topic: Operating Systems

1. When working with Operating Systems, why would a developer use threads? (variation 91)
2. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
3. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
4. What is the most accurate beginner-level explanation of context switching?
5. What is the most accurate beginner-level explanation of context switching? (variation 92)
6. When working with Operating Systems, why would a developer use system calls? (variation 106)
7. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
8. Which statement best describes file systems in Operating Systems? (variation 95)
9. Which option is a correct use case for scheduling in Operating Systems?
10. What is the most accurate beginner-level explanation of context switching? (variation 102)
11. Which statement best describes file systems in Operating Systems? (variation 105)
12. Which statement best describes processes in Operating Systems? (variation 90)
13. Which statement best describes processes in Operating Systems? (variation 350)
14. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
15. Which statement best describes file systems in Operating Systems? (variation 355)
16. When working with Operating Systems, why would a developer use threads? (variation 71)
17. What is the most accurate beginner-level explanation of deadlocks? (variation 107)

18. Which statement best describes processes in Operating Systems? (variation 100)
19. What is the most accurate beginner-level explanation of deadlocks?
20. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
21. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
22. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
23. When working with Operating Systems, why would a developer use system calls? (variation 356)
24. When working with Operating Systems, why would a developer use threads? (variation 81)
25. Which statement best describes processes in Operating Systems?
26. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
27. What is the most accurate beginner-level explanation of context switching? (variation 352)
28. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
29. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
30. Which statement best describes processes in Operating Systems? (variation 70)
31. Which statement best describes file systems in Operating Systems?
32. When working with Operating Systems, why would a developer use threads? (variation 101)
33. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
34. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
35. When working with Operating Systems, why would a developer use threads?
36. When working with Operating Systems, why would a developer use system calls? (variation 96)

37. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
38. When working with Operating Systems, why would a developer use system calls? (variation 76)
39. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
40. Which statement best describes file systems in Operating Systems? (variation 75)
41. Which statement best describes processes in Operating Systems? (variation 80)
42. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
43. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
44. What is the most accurate beginner-level explanation of context switching? (variation 82)
45. A student says 'paging' is not relevant to real projects. What is the best correction?
46. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
47. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
48. When working with Operating Systems, why would a developer use system calls?
49. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
50. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
51. A student says 'mutexes' is not relevant to real projects. What is the best correction?
52. Which statement best describes file systems in Operating Systems? (variation 85)
53. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
54. When working with Operating Systems, why would a developer use threads? (variation 351)
55. What is the most accurate beginner-level explanation of context switching? (variation 72)

56. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)

57. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)

58. When working with Operating Systems, why would a developer use system calls? (variation 86)

59. Which option is a correct use case for virtual memory in Operating Systems?

60. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
