

ICSE Previous Year Practice 2025 (2025)

Subject: General | Topic: Operating Systems

1. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
2. Which statement best describes processes in Operating Systems? (variation 350)
3. Which statement best describes file systems in Operating Systems? (variation 355)
4. Which statement best describes file systems in Operating Systems? (variation 95)
5. When working with Operating Systems, why would a developer use threads? (variation 71)
6. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
7. When working with Operating Systems, why would a developer use threads? (variation 101)
8. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
9. When working with Operating Systems, why would a developer use threads? (variation 351)
10. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
11. What is the most accurate beginner-level explanation of context switching?
12. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
13. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
14. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
15. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
16. Which option is a correct use case for scheduling in Operating Systems?
17. When working with Operating Systems, why would a developer use threads? (variation 91)

18. What is the most accurate beginner-level explanation of deadlocks?
19. When working with Operating Systems, why would a developer use threads?
20. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
21. A student says 'mutexes' is not relevant to real projects. What is the best correction?
22. What is the most accurate beginner-level explanation of context switching? (variation 102)
23. Which statement best describes processes in Operating Systems? (variation 100)
24. Which statement best describes file systems in Operating Systems? (variation 85)
25. A student says 'paging' is not relevant to real projects. What is the best correction?
26. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
27. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
28. When working with Operating Systems, why would a developer use system calls? (variation 96)
29. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
30. When working with Operating Systems, why would a developer use system calls? (variation 356)
31. When working with Operating Systems, why would a developer use system calls? (variation 86)
32. What is the most accurate beginner-level explanation of context switching? (variation 92)
33. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
34. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
35. What is the most accurate beginner-level explanation of context switching? (variation 72)
36. When working with Operating Systems, why would a developer use threads? (variation 81)

37. Which statement best describes file systems in Operating Systems?
38. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
39. Which statement best describes processes in Operating Systems? (variation 80)
40. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
41. Which statement best describes processes in Operating Systems? (variation 70)
42. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
43. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
44. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
45. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
46. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
47. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
48. When working with Operating Systems, why would a developer use system calls? (variation 106)
49. What is the most accurate beginner-level explanation of context switching? (variation 82)
50. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
51. Which statement best describes processes in Operating Systems?
52. Which statement best describes file systems in Operating Systems? (variation 105)
53. When working with Operating Systems, why would a developer use system calls? (variation 76)
54. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
55. Which statement best describes processes in Operating Systems? (variation 90)

56. Which statement best describes file systems in Operating Systems? (variation 75)

57. What is the most accurate beginner-level explanation of deadlocks? (variation 77)

58. Which option is a correct use case for virtual memory in Operating Systems?

59. What is the most accurate beginner-level explanation of context switching? (variation 352)

60. When working with Operating Systems, why would a developer use system calls?
