

IIT-JEE Previous Year Practice 2023 (2023)

Subject: General | Topic: Operating Systems

1. A student says 'paging' is not relevant to real projects. What is the best correction?
2. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
3. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
4. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
5. What is the most accurate beginner-level explanation of context switching? (variation 102)
6. Which statement best describes file systems in Operating Systems? (variation 105)
7. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
8. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
9. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
10. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
11. When working with Operating Systems, why would a developer use threads?
12. What is the most accurate beginner-level explanation of context switching? (variation 352)
13. When working with Operating Systems, why would a developer use threads? (variation 81)
14. Which statement best describes file systems in Operating Systems?
15. When working with Operating Systems, why would a developer use threads? (variation 351)
16. Which statement best describes processes in Operating Systems? (variation 70)
17. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)

18. When working with Operating Systems, why would a developer use system calls? (variation 76)
19. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
20. When working with Operating Systems, why would a developer use system calls? (variation 96)
21. When working with Operating Systems, why would a developer use threads? (variation 101)
22. Which statement best describes processes in Operating Systems? (variation 80)
23. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
24. What is the most accurate beginner-level explanation of context switching?
25. When working with Operating Systems, why would a developer use system calls? (variation 86)
26. Which statement best describes file systems in Operating Systems? (variation 355)
27. Which statement best describes file systems in Operating Systems? (variation 85)
28. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
29. When working with Operating Systems, why would a developer use threads? (variation 71)
30. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
31. Which statement best describes processes in Operating Systems? (variation 90)
32. What is the most accurate beginner-level explanation of context switching? (variation 92)
33. Which option is a correct use case for scheduling in Operating Systems?
34. When working with Operating Systems, why would a developer use threads? (variation 91)
35. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
36. What is the most accurate beginner-level explanation of context switching? (variation 82)

37. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
38. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
39. What is the most accurate beginner-level explanation of deadlocks?
40. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
41. Which statement best describes file systems in Operating Systems? (variation 75)
42. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
43. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
44. When working with Operating Systems, why would a developer use system calls? (variation 356)
45. Which statement best describes processes in Operating Systems?
46. Which statement best describes processes in Operating Systems? (variation 350)
47. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
48. Which statement best describes file systems in Operating Systems? (variation 95)
49. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
50. Which statement best describes processes in Operating Systems? (variation 100)
51. When working with Operating Systems, why would a developer use system calls?
52. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
53. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
54. What is the most accurate beginner-level explanation of context switching? (variation 72)
55. What is the most accurate beginner-level explanation of deadlocks? (variation 87)

56. A student says 'mutexes' is not relevant to real projects. What is the best correction?

57. When working with Operating Systems, why would a developer use system calls? (variation 106)

58. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)

59. Which option is a correct use case for virtual memory in Operating Systems?

60. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
