

IIT-JEE Previous Year Practice 2025 (2025)

Subject: General | Topic: Operating Systems

1. Which statement best describes processes in Operating Systems? (variation 100)
2. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
3. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
4. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
5. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
6. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
7. Which statement best describes file systems in Operating Systems? (variation 75)
8. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
9. What is the most accurate beginner-level explanation of context switching?
10. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
11. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
12. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
13. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
14. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
15. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
16. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
17. What is the most accurate beginner-level explanation of context switching? (variation 102)

18. When working with Operating Systems, why would a developer use threads? (variation 81)
19. Which statement best describes processes in Operating Systems?
20. Which statement best describes processes in Operating Systems? (variation 90)
21. Which option is a correct use case for virtual memory in Operating Systems?
22. A student says 'mutexes' is not relevant to real projects. What is the best correction?
23. Which statement best describes file systems in Operating Systems?
24. When working with Operating Systems, why would a developer use threads? (variation 91)
25. Which statement best describes processes in Operating Systems? (variation 70)
26. When working with Operating Systems, why would a developer use threads?
27. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
28. Which statement best describes file systems in Operating Systems? (variation 355)
29. Which statement best describes file systems in Operating Systems? (variation 95)
30. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
31. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
32. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
33. What is the most accurate beginner-level explanation of context switching? (variation 92)
34. When working with Operating Systems, why would a developer use threads? (variation 71)
35. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
36. A student says 'paging' is not relevant to real projects. What is the best correction?

37. When working with Operating Systems, why would a developer use threads? (variation 351)
38. Which statement best describes processes in Operating Systems? (variation 350)
39. When working with Operating Systems, why would a developer use system calls?
40. What is the most accurate beginner-level explanation of deadlocks?
41. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
42. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
43. What is the most accurate beginner-level explanation of context switching? (variation 82)
44. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
45. Which statement best describes processes in Operating Systems? (variation 80)
46. What is the most accurate beginner-level explanation of context switching? (variation 72)
47. Which statement best describes file systems in Operating Systems? (variation 85)
48. When working with Operating Systems, why would a developer use system calls? (variation 96)
49. When working with Operating Systems, why would a developer use system calls? (variation 86)
50. When working with Operating Systems, why would a developer use system calls? (variation 356)
51. When working with Operating Systems, why would a developer use system calls? (variation 106)
52. When working with Operating Systems, why would a developer use threads? (variation 101)
53. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
54. Which option is a correct use case for scheduling in Operating Systems?
55. What is the most accurate beginner-level explanation of deadlocks? (variation 77)

56. Which option is a correct use case for scheduling in Operating Systems? (variation 88)

57. What is the most accurate beginner-level explanation of deadlocks? (variation 87)

58. Which statement best describes file systems in Operating Systems? (variation 105)

59. What is the most accurate beginner-level explanation of context switching? (variation 352)

60. When working with Operating Systems, why would a developer use system calls? (variation 76)
