

NEET Previous Year Practice 2022 (2022)

Subject: General | Topic: Operating Systems

1. Which statement best describes file systems in Operating Systems? (variation 105)
2. When working with Operating Systems, why would a developer use system calls? (variation 96)
3. Which statement best describes processes in Operating Systems? (variation 70)
4. What is the most accurate beginner-level explanation of context switching? (variation 82)
5. What is the most accurate beginner-level explanation of deadlocks?
6. A student says 'paging' is not relevant to real projects. What is the best correction?
7. When working with Operating Systems, why would a developer use system calls? (variation 76)
8. Which statement best describes processes in Operating Systems? (variation 80)
9. When working with Operating Systems, why would a developer use threads?
10. Which statement best describes processes in Operating Systems?
11. A student says 'mutexes' is not relevant to real projects. What is the best correction?
12. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
13. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
14. Which statement best describes file systems in Operating Systems? (variation 85)
15. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
16. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
17. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)

18. When working with Operating Systems, why would a developer use threads? (variation 71)
19. When working with Operating Systems, why would a developer use system calls?
20. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
21. When working with Operating Systems, why would a developer use threads? (variation 81)
22. When working with Operating Systems, why would a developer use threads? (variation 351)
23. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
24. What is the most accurate beginner-level explanation of context switching?
25. When working with Operating Systems, why would a developer use threads? (variation 91)
26. Which statement best describes file systems in Operating Systems? (variation 75)
27. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
28. What is the most accurate beginner-level explanation of context switching? (variation 92)
29. Which statement best describes file systems in Operating Systems? (variation 95)
30. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
31. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
32. Which option is a correct use case for virtual memory in Operating Systems?
33. When working with Operating Systems, why would a developer use system calls? (variation 86)
34. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
35. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
36. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)

37. Which statement best describes processes in Operating Systems? (variation 90)
38. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
39. When working with Operating Systems, why would a developer use threads? (variation 101)
40. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
41. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
42. Which statement best describes file systems in Operating Systems? (variation 355)
43. What is the most accurate beginner-level explanation of context switching? (variation 352)
44. Which statement best describes file systems in Operating Systems?
45. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
46. Which statement best describes processes in Operating Systems? (variation 350)
47. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
48. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
49. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
50. When working with Operating Systems, why would a developer use system calls? (variation 106)
51. Which option is a correct use case for scheduling in Operating Systems?
52. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
53. What is the most accurate beginner-level explanation of context switching? (variation 102)
54. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
55. When working with Operating Systems, why would a developer use system calls? (variation 356)

56. Which statement best describes processes in Operating Systems? (variation 100)

57. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)

58. What is the most accurate beginner-level explanation of context switching? (variation 72)

59. Which option is a correct use case for scheduling in Operating Systems? (variation 108)

60. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
