

NEET Previous Year Practice 2025 (2025)

Subject: General | Topic: Operating Systems

1. What is the most accurate beginner-level explanation of context switching? (variation 72)
2. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
3. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
4. What is the most accurate beginner-level explanation of context switching?
5. When working with Operating Systems, why would a developer use system calls? (variation 96)
6. When working with Operating Systems, why would a developer use threads? (variation 351)
7. Which statement best describes file systems in Operating Systems? (variation 75)
8. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
9. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
10. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
11. Which option is a correct use case for scheduling in Operating Systems?
12. What is the most accurate beginner-level explanation of context switching? (variation 102)
13. Which statement best describes processes in Operating Systems?
14. Which statement best describes processes in Operating Systems? (variation 100)
15. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
16. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
17. When working with Operating Systems, why would a developer use system calls? (variation 356)

18. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
19. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
20. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
21. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
22. What is the most accurate beginner-level explanation of context switching? (variation 352)
23. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
24. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
25. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
26. What is the most accurate beginner-level explanation of context switching? (variation 82)
27. When working with Operating Systems, why would a developer use threads? (variation 81)
28. When working with Operating Systems, why would a developer use threads?
29. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
30. Which statement best describes processes in Operating Systems? (variation 90)
31. Which statement best describes processes in Operating Systems? (variation 70)
32. When working with Operating Systems, why would a developer use system calls?
33. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
34. Which statement best describes file systems in Operating Systems? (variation 85)
35. When working with Operating Systems, why would a developer use system calls? (variation 106)
36. What is the most accurate beginner-level explanation of deadlocks? (variation 87)

37. When working with Operating Systems, why would a developer use threads? (variation 101)
38. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
39. When working with Operating Systems, why would a developer use threads? (variation 71)
40. Which statement best describes file systems in Operating Systems? (variation 95)
41. When working with Operating Systems, why would a developer use threads? (variation 91)
42. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
43. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
44. A student says 'paging' is not relevant to real projects. What is the best correction?
45. Which statement best describes processes in Operating Systems? (variation 80)
46. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
47. Which statement best describes file systems in Operating Systems? (variation 355)
48. Which statement best describes file systems in Operating Systems? (variation 105)
49. When working with Operating Systems, why would a developer use system calls? (variation 76)
50. What is the most accurate beginner-level explanation of context switching? (variation 92)
51. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
52. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
53. What is the most accurate beginner-level explanation of deadlocks?
54. Which statement best describes file systems in Operating Systems?
55. When working with Operating Systems, why would a developer use system calls? (variation 86)

56. Which option is a correct use case for virtual memory in Operating Systems?
57. A student says 'mutexes' is not relevant to real projects. What is the best correction?
58. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
59. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
60. Which statement best describes processes in Operating Systems? (variation 350)
