

NEET Previous Year Practice 2026 (2026)

Subject: General | Topic: Operating Systems

1. Which statement best describes file systems in Operating Systems? (variation 75)
2. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
3. Which option is a correct use case for scheduling in Operating Systems?
4. A student says 'mutexes' is not relevant to real projects. What is the best correction?
5. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
6. When working with Operating Systems, why would a developer use system calls? (variation 106)
7. When working with Operating Systems, why would a developer use threads? (variation 351)
8. What is the most accurate beginner-level explanation of context switching? (variation 82)
9. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
10. Which option is a correct use case for virtual memory in Operating Systems?
11. When working with Operating Systems, why would a developer use system calls? (variation 86)
12. When working with Operating Systems, why would a developer use threads? (variation 91)
13. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
14. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
15. Which statement best describes processes in Operating Systems? (variation 70)
16. Which statement best describes file systems in Operating Systems? (variation 105)
17. Which option is a correct use case for scheduling in Operating Systems? (variation 78)

18. Which statement best describes processes in Operating Systems? (variation 350)
19. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
20. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
21. What is the most accurate beginner-level explanation of context switching? (variation 92)
22. A student says 'paging' is not relevant to real projects. What is the best correction?
23. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
24. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
25. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
26. Which statement best describes file systems in Operating Systems? (variation 355)
27. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
28. Which statement best describes file systems in Operating Systems? (variation 95)
29. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
30. When working with Operating Systems, why would a developer use system calls?
31. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
32. When working with Operating Systems, why would a developer use system calls? (variation 76)
33. Which statement best describes file systems in Operating Systems? (variation 85)
34. What is the most accurate beginner-level explanation of context switching? (variation 72)
35. When working with Operating Systems, why would a developer use threads?
36. Which statement best describes processes in Operating Systems? (variation 90)

37. Which statement best describes processes in Operating Systems? (variation 100)
38. When working with Operating Systems, why would a developer use threads? (variation 71)
39. When working with Operating Systems, why would a developer use system calls? (variation 356)
40. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
41. Which statement best describes processes in Operating Systems? (variation 80)
42. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
43. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
44. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
45. What is the most accurate beginner-level explanation of context switching? (variation 352)
46. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
47. What is the most accurate beginner-level explanation of deadlocks?
48. When working with Operating Systems, why would a developer use system calls? (variation 96)
49. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
50. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
51. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
52. Which statement best describes processes in Operating Systems?
53. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
54. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
55. When working with Operating Systems, why would a developer use threads? (variation 81)

56. What is the most accurate beginner-level explanation of context switching?
57. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
58. Which statement best describes file systems in Operating Systems?
59. When working with Operating Systems, why would a developer use threads? (variation 101)
60. What is the most accurate beginner-level explanation of context switching? (variation 102)
