

UPSC Previous Year Practice 2019 (2019)

Subject: General | Topic: Operating Systems

1. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
2. When working with Operating Systems, why would a developer use threads? (variation 71)
3. What is the most accurate beginner-level explanation of context switching? (variation 352)
4. What is the most accurate beginner-level explanation of context switching? (variation 82)
5. When working with Operating Systems, why would a developer use system calls? (variation 356)
6. Which statement best describes processes in Operating Systems? (variation 80)
7. When working with Operating Systems, why would a developer use system calls? (variation 106)
8. Which option is a correct use case for virtual memory in Operating Systems?
9. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
10. When working with Operating Systems, why would a developer use threads?
11. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
12. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
13. When working with Operating Systems, why would a developer use threads? (variation 81)
14. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
15. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
16. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
17. When working with Operating Systems, why would a developer use system calls? (variation 86)

18. Which statement best describes file systems in Operating Systems? (variation 85)
19. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
20. What is the most accurate beginner-level explanation of deadlocks?
21. What is the most accurate beginner-level explanation of context switching? (variation 72)
22. Which statement best describes file systems in Operating Systems? (variation 105)
23. What is the most accurate beginner-level explanation of context switching?
24. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
25. A student says 'paging' is not relevant to real projects. What is the best correction?
26. When working with Operating Systems, why would a developer use system calls? (variation 96)
27. Which statement best describes file systems in Operating Systems? (variation 75)
28. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
29. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
30. Which statement best describes processes in Operating Systems? (variation 90)
31. When working with Operating Systems, why would a developer use system calls?
32. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
33. Which statement best describes processes in Operating Systems? (variation 70)
34. When working with Operating Systems, why would a developer use threads? (variation 351)
35. Which statement best describes file systems in Operating Systems? (variation 355)
36. A student says 'mutexes' is not relevant to real projects. What is the best correction?

37. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
38. Which statement best describes file systems in Operating Systems?
39. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
40. Which statement best describes processes in Operating Systems? (variation 100)
41. When working with Operating Systems, why would a developer use system calls? (variation 76)
42. Which statement best describes file systems in Operating Systems? (variation 95)
43. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
44. Which statement best describes processes in Operating Systems? (variation 350)
45. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
46. When working with Operating Systems, why would a developer use threads? (variation 101)
47. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
48. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
49. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
50. What is the most accurate beginner-level explanation of context switching? (variation 92)
51. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
52. When working with Operating Systems, why would a developer use threads? (variation 91)
53. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
54. Which statement best describes processes in Operating Systems?
55. What is the most accurate beginner-level explanation of context switching? (variation 102)

56. Which option is a correct use case for scheduling in Operating Systems?

57. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)

58. What is the most accurate beginner-level explanation of deadlocks? (variation 87)

59. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)

60. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
