

UPSC Previous Year Practice 2020 (2020)

Subject: General | Topic: Operating Systems

1. Which statement best describes processes in Operating Systems?
2. When working with Operating Systems, why would a developer use threads? (variation 71)
3. When working with Operating Systems, why would a developer use threads? (variation 101)
4. Which statement best describes file systems in Operating Systems? (variation 355)
5. When working with Operating Systems, why would a developer use threads? (variation 91)
6. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
7. A student says 'paging' is not relevant to real projects. What is the best correction?
8. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
9. Which statement best describes file systems in Operating Systems? (variation 95)
10. What is the most accurate beginner-level explanation of context switching? (variation 352)
11. Which statement best describes processes in Operating Systems? (variation 350)
12. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
13. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
14. When working with Operating Systems, why would a developer use system calls? (variation 96)
15. Which statement best describes processes in Operating Systems? (variation 70)
16. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
17. Which statement best describes file systems in Operating Systems?

18. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
19. What is the most accurate beginner-level explanation of context switching? (variation 102)
20. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
21. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
22. When working with Operating Systems, why would a developer use system calls? (variation 86)
23. Which statement best describes file systems in Operating Systems? (variation 105)
24. When working with Operating Systems, why would a developer use system calls?
25. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
26. What is the most accurate beginner-level explanation of context switching?
27. Which statement best describes processes in Operating Systems? (variation 100)
28. When working with Operating Systems, why would a developer use system calls? (variation 106)
29. Which option is a correct use case for virtual memory in Operating Systems?
30. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
31. Which statement best describes processes in Operating Systems? (variation 80)
32. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
33. When working with Operating Systems, why would a developer use system calls? (variation 76)
34. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
35. When working with Operating Systems, why would a developer use threads? (variation 81)
36. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)

37. When working with Operating Systems, why would a developer use system calls? (variation 356)
38. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
39. When working with Operating Systems, why would a developer use threads?
40. Which statement best describes processes in Operating Systems? (variation 90)
41. What is the most accurate beginner-level explanation of deadlocks?
42. Which statement best describes file systems in Operating Systems? (variation 85)
43. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
44. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
45. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
46. A student says 'mutexes' is not relevant to real projects. What is the best correction?
47. When working with Operating Systems, why would a developer use threads? (variation 351)
48. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
49. What is the most accurate beginner-level explanation of context switching? (variation 72)
50. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
51. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
52. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
53. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
54. Which statement best describes file systems in Operating Systems? (variation 75)
55. What is the most accurate beginner-level explanation of deadlocks? (variation 357)

56. Which option is a correct use case for scheduling in Operating Systems? (variation 88)

57. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)

58. What is the most accurate beginner-level explanation of context switching? (variation 82)

59. Which option is a correct use case for scheduling in Operating Systems?

60. What is the most accurate beginner-level explanation of context switching? (variation 92)
