

UPSC Previous Year Practice 2021 (2021)

Subject: General | Topic: Operating Systems

1. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
2. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
3. What is the most accurate beginner-level explanation of context switching? (variation 72)
4. When working with Operating Systems, why would a developer use threads?
5. When working with Operating Systems, why would a developer use threads? (variation 81)
6. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
7. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
8. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
9. Which option is a correct use case for virtual memory in Operating Systems?
10. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
11. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
12. When working with Operating Systems, why would a developer use system calls? (variation 96)
13. What is the most accurate beginner-level explanation of context switching? (variation 82)
14. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
15. What is the most accurate beginner-level explanation of context switching?
16. When working with Operating Systems, why would a developer use system calls? (variation 76)
17. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)

18. When working with Operating Systems, why would a developer use threads? (variation 351)
19. Which statement best describes processes in Operating Systems? (variation 90)
20. When working with Operating Systems, why would a developer use system calls? (variation 86)
21. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
22. Which statement best describes processes in Operating Systems? (variation 80)
23. What is the most accurate beginner-level explanation of context switching? (variation 102)
24. When working with Operating Systems, why would a developer use threads? (variation 71)
25. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
26. Which statement best describes file systems in Operating Systems? (variation 95)
27. Which statement best describes file systems in Operating Systems? (variation 85)
28. When working with Operating Systems, why would a developer use threads? (variation 91)
29. A student says 'mutexes' is not relevant to real projects. What is the best correction?
30. A student says 'paging' is not relevant to real projects. What is the best correction?
31. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
32. What is the most accurate beginner-level explanation of deadlocks?
33. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
34. Which statement best describes processes in Operating Systems? (variation 100)
35. What is the most accurate beginner-level explanation of context switching? (variation 352)
36. Which statement best describes file systems in Operating Systems? (variation 105)

37. What is the most accurate beginner-level explanation of context switching? (variation 92)
38. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
39. Which statement best describes processes in Operating Systems? (variation 350)
40. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
41. When working with Operating Systems, why would a developer use system calls?
42. When working with Operating Systems, why would a developer use system calls? (variation 106)
43. When working with Operating Systems, why would a developer use system calls? (variation 356)
44. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
45. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
46. Which statement best describes processes in Operating Systems? (variation 70)
47. When working with Operating Systems, why would a developer use threads? (variation 101)
48. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
49. Which statement best describes file systems in Operating Systems?
50. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
51. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
52. Which option is a correct use case for scheduling in Operating Systems?
53. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
54. Which statement best describes processes in Operating Systems?
55. Which statement best describes file systems in Operating Systems? (variation 355)

56. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)

57. Which option is a correct use case for scheduling in Operating Systems? (variation 88)

58. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)

59. Which statement best describes file systems in Operating Systems? (variation 75)

60. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
