

UPSC Previous Year Practice 2024 (2024)

Subject: General | Topic: Operating Systems

1. When working with Operating Systems, why would a developer use threads? (variation 91)
2. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
3. Which statement best describes file systems in Operating Systems? (variation 85)
4. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
5. When working with Operating Systems, why would a developer use system calls? (variation 96)
6. What is the most accurate beginner-level explanation of context switching? (variation 72)
7. Which option is a correct use case for virtual memory in Operating Systems?
8. Which statement best describes file systems in Operating Systems?
9. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
10. Which statement best describes file systems in Operating Systems? (variation 75)
11. What is the most accurate beginner-level explanation of context switching? (variation 92)
12. What is the most accurate beginner-level explanation of deadlocks?
13. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
14. Which statement best describes processes in Operating Systems? (variation 80)
15. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
16. Which option is a correct use case for scheduling in Operating Systems?
17. Which statement best describes processes in Operating Systems? (variation 100)

18. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
19. Which statement best describes file systems in Operating Systems? (variation 105)
20. When working with Operating Systems, why would a developer use system calls? (variation 86)
21. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
22. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
23. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
24. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
25. When working with Operating Systems, why would a developer use system calls? (variation 76)
26. When working with Operating Systems, why would a developer use threads? (variation 101)
27. A student says 'mutexes' is not relevant to real projects. What is the best correction?
28. What is the most accurate beginner-level explanation of context switching? (variation 82)
29. When working with Operating Systems, why would a developer use threads? (variation 71)
30. What is the most accurate beginner-level explanation of context switching? (variation 102)
31. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
32. When working with Operating Systems, why would a developer use system calls?
33. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
34. When working with Operating Systems, why would a developer use threads? (variation 351)
35. Which statement best describes file systems in Operating Systems? (variation 95)
36. When working with Operating Systems, why would a developer use threads?

37. Which statement best describes processes in Operating Systems?
38. What is the most accurate beginner-level explanation of context switching? (variation 352)
39. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
40. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
41. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
42. When working with Operating Systems, why would a developer use system calls? (variation 356)
43. A student says 'paging' is not relevant to real projects. What is the best correction?
44. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
45. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
46. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
47. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
48. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
49. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
50. When working with Operating Systems, why would a developer use threads? (variation 81)
51. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
52. What is the most accurate beginner-level explanation of context switching?
53. Which statement best describes processes in Operating Systems? (variation 70)
54. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
55. Which statement best describes file systems in Operating Systems? (variation 355)

56. Which statement best describes processes in Operating Systems? (variation 90)

57. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)

58. When working with Operating Systems, why would a developer use system calls? (variation 106)

59. Which option is a correct use case for scheduling in Operating Systems? (variation 98)

60. Which statement best describes processes in Operating Systems? (variation 350)
