

University Exams Previous Year Practice 2021 (2021)

Subject: General | Topic: Operating Systems

1. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
2. Which statement best describes file systems in Operating Systems? (variation 75)
3. Which statement best describes processes in Operating Systems? (variation 80)
4. When working with Operating Systems, why would a developer use threads?
5. What is the most accurate beginner-level explanation of context switching?
6. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
7. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
8. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
9. Which statement best describes processes in Operating Systems?
10. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
11. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
12. What is the most accurate beginner-level explanation of deadlocks?
13. Which statement best describes processes in Operating Systems? (variation 70)
14. When working with Operating Systems, why would a developer use system calls? (variation 86)
15. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
16. Which statement best describes file systems in Operating Systems? (variation 355)
17. When working with Operating Systems, why would a developer use threads? (variation 101)

18. Which statement best describes processes in Operating Systems? (variation 350)
19. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
20. Which statement best describes file systems in Operating Systems? (variation 95)
21. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
22. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
23. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
24. What is the most accurate beginner-level explanation of context switching? (variation 92)
25. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
26. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
27. Which option is a correct use case for virtual memory in Operating Systems?
28. Which statement best describes file systems in Operating Systems?
29. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
30. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
31. When working with Operating Systems, why would a developer use system calls?
32. When working with Operating Systems, why would a developer use threads? (variation 91)
33. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
34. A student says 'mutexes' is not relevant to real projects. What is the best correction?
35. What is the most accurate beginner-level explanation of context switching? (variation 102)
36. A student says 'paging' is not relevant to real projects. What is the best correction?

37. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
38. What is the most accurate beginner-level explanation of context switching? (variation 82)
39. When working with Operating Systems, why would a developer use threads? (variation 71)
40. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
41. When working with Operating Systems, why would a developer use system calls? (variation 96)
42. What is the most accurate beginner-level explanation of context switching? (variation 72)
43. What is the most accurate beginner-level explanation of context switching? (variation 352)
44. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
45. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
46. When working with Operating Systems, why would a developer use system calls? (variation 106)
47. When working with Operating Systems, why would a developer use system calls? (variation 76)
48. Which statement best describes file systems in Operating Systems? (variation 105)
49. Which statement best describes processes in Operating Systems? (variation 100)
50. Which statement best describes processes in Operating Systems? (variation 90)
51. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
52. Which statement best describes file systems in Operating Systems? (variation 85)
53. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
54. When working with Operating Systems, why would a developer use system calls? (variation 356)
55. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)

56. When working with Operating Systems, why would a developer use threads? (variation 351)
57. When working with Operating Systems, why would a developer use threads? (variation 81)
58. Which option is a correct use case for scheduling in Operating Systems?
59. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
60. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
