

University Exams Previous Year Practice 2025 (2025)

Subject: General | Topic: Operating Systems

1. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
2. When working with Operating Systems, why would a developer use system calls? (variation 356)
3. Which statement best describes file systems in Operating Systems? (variation 75)
4. When working with Operating Systems, why would a developer use system calls? (variation 96)
5. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
6. What is the most accurate beginner-level explanation of context switching? (variation 92)
7. When working with Operating Systems, why would a developer use threads? (variation 351)
8. When working with Operating Systems, why would a developer use threads? (variation 101)
9. Which statement best describes processes in Operating Systems? (variation 350)
10. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
11. Which statement best describes processes in Operating Systems? (variation 90)
12. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
13. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
14. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
15. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
16. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
17. When working with Operating Systems, why would a developer use threads?

18. What is the most accurate beginner-level explanation of context switching? (variation 82)
19. A student says 'paging' is not relevant to real projects. What is the best correction?
20. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
21. Which statement best describes processes in Operating Systems? (variation 100)
22. Which statement best describes processes in Operating Systems?
23. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
24. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
25. Which statement best describes processes in Operating Systems? (variation 70)
26. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
27. Which statement best describes file systems in Operating Systems? (variation 105)
28. When working with Operating Systems, why would a developer use system calls? (variation 76)
29. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
30. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
31. When working with Operating Systems, why would a developer use system calls?
32. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
33. When working with Operating Systems, why would a developer use threads? (variation 81)
34. What is the most accurate beginner-level explanation of context switching? (variation 352)
35. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
36. A student says 'mutexes' is not relevant to real projects. What is the best correction?

37. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
38. Which statement best describes file systems in Operating Systems? (variation 85)
39. When working with Operating Systems, why would a developer use system calls? (variation 106)
40. Which statement best describes file systems in Operating Systems? (variation 95)
41. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
42. When working with Operating Systems, why would a developer use system calls? (variation 86)
43. Which option is a correct use case for scheduling in Operating Systems?
44. Which statement best describes processes in Operating Systems? (variation 80)
45. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
46. When working with Operating Systems, why would a developer use threads? (variation 71)
47. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
48. What is the most accurate beginner-level explanation of context switching?
49. Which option is a correct use case for virtual memory in Operating Systems?
50. Which statement best describes file systems in Operating Systems?
51. What is the most accurate beginner-level explanation of context switching? (variation 102)
52. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
53. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
54. When working with Operating Systems, why would a developer use threads? (variation 91)
55. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)

56. What is the most accurate beginner-level explanation of context switching? (variation 72)
57. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
58. Which statement best describes file systems in Operating Systems? (variation 355)
59. What is the most accurate beginner-level explanation of deadlocks?
60. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
