

IIT-JEE Previous Year Practice 2023 (2023)

Subject: General | Topic: Cyber Security

1. Which statement best describes authentication in Cyber Security? (variation 90)
2. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 104)
3. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 94)
4. Which option is a correct use case for firewalls in Cyber Security? (variation 98)
5. What is the most accurate beginner-level explanation of hashing passwords? (variation 352)
6. When working with Cyber Security, why would a developer use authorization? (variation 351)
7. Which statement best describes TLS in Cyber Security? (variation 355)
8. Which option is a correct use case for SQL injection in Cyber Security?
9. Which statement best describes authentication in Cyber Security? (variation 100)
10. What is the most accurate beginner-level explanation of hashing passwords? (variation 92)
11. What is the most accurate beginner-level explanation of hashing passwords? (variation 72)
12. What is the most accurate beginner-level explanation of hashing passwords? (variation 82)
13. Which option is a correct use case for SQL injection in Cyber Security? (variation 73)
14. Which option is a correct use case for firewalls in Cyber Security?
15. Which statement best describes TLS in Cyber Security? (variation 105)
16. Which statement best describes TLS in Cyber Security? (variation 95)
17. When working with Cyber Security, why would a developer use least privilege? (variation 76)

18. What is the most accurate beginner-level explanation of hashing passwords?
19. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 77)
20. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 359)
21. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 97)
22. What is the most accurate beginner-level explanation of multi-factor authentication?
23. When working with Cyber Security, why would a developer use least privilege? (variation 356)
24. Which statement best describes TLS in Cyber Security? (variation 75)
25. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 99)
26. Which option is a correct use case for SQL injection in Cyber Security? (variation 103)
27. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 74)
28. Which statement best describes authentication in Cyber Security? (variation 80)
29. A student says 'security patches' is not relevant to real projects. What is the best correction?
30. When working with Cyber Security, why would a developer use least privilege? (variation 96)
31. Which option is a correct use case for firewalls in Cyber Security? (variation 88)
32. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 109)
33. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 87)
34. Which statement best describes TLS in Cyber Security? (variation 85)
35. Which statement best describes authentication in Cyber Security? (variation 350)
36. Which option is a correct use case for SQL injection in Cyber Security? (variation 83)

37. When working with Cyber Security, why would a developer use least privilege?
38. Which option is a correct use case for SQL injection in Cyber Security? (variation 93)
39. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 107)
40. Which statement best describes authentication in Cyber Security?
41. When working with Cyber Security, why would a developer use authorization? (variation 81)
42. What is the most accurate beginner-level explanation of hashing passwords? (variation 102)
43. When working with Cyber Security, why would a developer use authorization? (variation 71)
44. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 89)
45. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 354)
46. Which option is a correct use case for SQL injection in Cyber Security? (variation 353)
47. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 84)
48. When working with Cyber Security, why would a developer use authorization? (variation 101)
49. Which option is a correct use case for firewalls in Cyber Security? (variation 78)
50. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 357)
51. Which statement best describes TLS in Cyber Security?
52. When working with Cyber Security, why would a developer use least privilege? (variation 106)
53. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 79)
54. When working with Cyber Security, why would a developer use least privilege? (variation 86)
55. Which option is a correct use case for firewalls in Cyber Security? (variation 358)

56. When working with Cyber Security, why would a developer use authorization? (variation 91)

57. Which option is a correct use case for firewalls in Cyber Security? (variation 108)

58. Which statement best describes authentication in Cyber Security? (variation 70)

59. When working with Cyber Security, why would a developer use authorization?

60. A student says 'XSS' is not relevant to real projects. What is the best correction?
