

IIT-JEE Previous Year Practice 2026 (2026)

Subject: General | Topic: Cyber Security

1. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 107)
2. What is the most accurate beginner-level explanation of hashing passwords? (variation 102)
3. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 354)
4. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 357)
5. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 104)
6. Which option is a correct use case for firewalls in Cyber Security? (variation 88)
7. Which statement best describes TLS in Cyber Security?
8. When working with Cyber Security, why would a developer use authorization? (variation 101)
9. Which option is a correct use case for SQL injection in Cyber Security? (variation 93)
10. Which statement best describes authentication in Cyber Security?
11. When working with Cyber Security, why would a developer use authorization? (variation 71)
12. When working with Cyber Security, why would a developer use least privilege? (variation 106)
13. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 359)
14. Which statement best describes authentication in Cyber Security? (variation 80)
15. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 77)
16. What is the most accurate beginner-level explanation of hashing passwords? (variation 82)
17. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 99)

18. Which option is a correct use case for SQL injection in Cyber Security? (variation 353)
19. When working with Cyber Security, why would a developer use authorization? (variation 81)
20. Which statement best describes TLS in Cyber Security? (variation 95)
21. Which statement best describes authentication in Cyber Security? (variation 70)
22. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 109)
23. Which option is a correct use case for firewalls in Cyber Security? (variation 358)
24. Which option is a correct use case for SQL injection in Cyber Security?
25. When working with Cyber Security, why would a developer use least privilege?
26. When working with Cyber Security, why would a developer use authorization? (variation 351)
27. When working with Cyber Security, why would a developer use authorization? (variation 91)
28. A student says 'security patches' is not relevant to real projects. What is the best correction?
29. When working with Cyber Security, why would a developer use least privilege? (variation 356)
30. Which option is a correct use case for SQL injection in Cyber Security? (variation 103)
31. Which statement best describes TLS in Cyber Security? (variation 85)
32. Which statement best describes authentication in Cyber Security? (variation 350)
33. Which option is a correct use case for SQL injection in Cyber Security? (variation 73)
34. Which option is a correct use case for firewalls in Cyber Security? (variation 108)
35. When working with Cyber Security, why would a developer use least privilege? (variation 86)
36. Which option is a correct use case for firewalls in Cyber Security?

37. Which statement best describes authentication in Cyber Security? (variation 100)
38. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 87)
39. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 84)
40. Which statement best describes TLS in Cyber Security? (variation 355)
41. Which option is a correct use case for firewalls in Cyber Security? (variation 98)
42. What is the most accurate beginner-level explanation of hashing passwords? (variation 352)
43. Which statement best describes authentication in Cyber Security? (variation 90)
44. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 79)
45. When working with Cyber Security, why would a developer use least privilege? (variation 76)
46. Which option is a correct use case for SQL injection in Cyber Security? (variation 83)
47. Which option is a correct use case for firewalls in Cyber Security? (variation 78)
48. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 74)
49. Which statement best describes TLS in Cyber Security? (variation 75)
50. Which statement best describes TLS in Cyber Security? (variation 105)
51. When working with Cyber Security, why would a developer use least privilege? (variation 96)
52. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 97)
53. What is the most accurate beginner-level explanation of hashing passwords? (variation 92)
54. A student says 'XSS' is not relevant to real projects. What is the best correction?
55. When working with Cyber Security, why would a developer use authorization?

56. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 94)

57. What is the most accurate beginner-level explanation of multi-factor authentication?

58. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 89)

59. What is the most accurate beginner-level explanation of hashing passwords?

60. What is the most accurate beginner-level explanation of hashing passwords? (variation 72)
