

NEET Previous Year Practice 2023 (2023)

Subject: General | Topic: Cyber Security

1. Which statement best describes TLS in Cyber Security? (variation 85)
2. What is the most accurate beginner-level explanation of hashing passwords? (variation 72)
3. Which statement best describes authentication in Cyber Security?
4. Which option is a correct use case for firewalls in Cyber Security? (variation 78)
5. Which option is a correct use case for SQL injection in Cyber Security? (variation 353)
6. When working with Cyber Security, why would a developer use authorization? (variation 81)
7. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 109)
8. Which option is a correct use case for firewalls in Cyber Security? (variation 88)
9. What is the most accurate beginner-level explanation of hashing passwords? (variation 102)
10. Which statement best describes authentication in Cyber Security? (variation 80)
11. Which option is a correct use case for SQL injection in Cyber Security? (variation 83)
12. What is the most accurate beginner-level explanation of hashing passwords? (variation 92)
13. Which option is a correct use case for SQL injection in Cyber Security? (variation 103)
14. Which statement best describes authentication in Cyber Security? (variation 90)
15. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 97)
16. Which statement best describes TLS in Cyber Security? (variation 105)
17. When working with Cyber Security, why would a developer use least privilege?

18. When working with Cyber Security, why would a developer use least privilege? (variation 96)
19. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 94)
20. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 74)
21. When working with Cyber Security, why would a developer use authorization? (variation 351)
22. When working with Cyber Security, why would a developer use authorization? (variation 71)
23. Which option is a correct use case for firewalls in Cyber Security? (variation 358)
24. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 107)
25. When working with Cyber Security, why would a developer use least privilege? (variation 76)
26. When working with Cyber Security, why would a developer use authorization? (variation 101)
27. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 354)
28. A student says 'security patches' is not relevant to real projects. What is the best correction?
29. Which option is a correct use case for firewalls in Cyber Security? (variation 98)
30. What is the most accurate beginner-level explanation of hashing passwords? (variation 352)
31. Which statement best describes authentication in Cyber Security? (variation 350)
32. A student says 'XSS' is not relevant to real projects. What is the best correction?
33. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 87)
34. Which statement best describes TLS in Cyber Security? (variation 355)
35. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 359)
36. What is the most accurate beginner-level explanation of hashing passwords? (variation 82)

37. Which statement best describes TLS in Cyber Security? (variation 75)
38. When working with Cyber Security, why would a developer use least privilege? (variation 356)
39. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 84)
40. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 77)
41. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 79)
42. When working with Cyber Security, why would a developer use authorization? (variation 91)
43. What is the most accurate beginner-level explanation of multi-factor authentication?
44. Which option is a correct use case for firewalls in Cyber Security?
45. When working with Cyber Security, why would a developer use least privilege? (variation 86)
46. When working with Cyber Security, why would a developer use least privilege? (variation 106)
47. Which option is a correct use case for SQL injection in Cyber Security? (variation 93)
48. Which statement best describes authentication in Cyber Security? (variation 100)
49. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 89)
50. What is the most accurate beginner-level explanation of hashing passwords?
51. Which option is a correct use case for SQL injection in Cyber Security?
52. Which option is a correct use case for SQL injection in Cyber Security? (variation 73)
53. Which statement best describes TLS in Cyber Security? (variation 95)
54. Which statement best describes TLS in Cyber Security?
55. Which statement best describes authentication in Cyber Security? (variation 70)

56. What is the most accurate beginner-level explanation of multi-factor authentication? (variation 357)

57. When working with Cyber Security, why would a developer use authorization?

58. A student says 'XSS' is not relevant to real projects. What is the best correction? (variation 104)

59. Which option is a correct use case for firewalls in Cyber Security? (variation 108)

60. A student says 'security patches' is not relevant to real projects. What is the best correction? (variation 99)
